Dear Sir:

**COMMENTS ON THE STATEMENT OF REASONS FOR ALLOWANCE**

As noted in MPEP 1302.14:

The statement [of reasons for allowance] is not intended to necessarily state all the reasons for allowance or all the details why claims are allowed and should not be written to specifically or impliedly state that all the reasons for allowance are set forth.

As such, the applicants understand that the allowed claims are allowable based on the claim language for each claim and that the reasons for allowance are not intended to fully express all the reasons for allowance. The applicant respectfully submits that the statement for reasons of allowance are not necessarily comprehensive for any individual claim and are not

necessarily the sole reasons applicable to all of the claims. As a non-inclusive example, applicants note that allowed independent claim 34 does not recite "the third circuit partition is configured for coupling to said baseband processor circuitry, and wherein said at least one variable capacitance device of said frequency modification circuitry is configured to adjust the frequency of said adjustable reference signal based at least in part on one or more frequency control signals received by said frequency modification circuitry, said one or more frequency control signals comprising signals provided by said baseband processor circuitry or comprising signals that are based on signals provided by said baseband processor circuitry" that is stated on page 6 of the Office Action mailed September 25, 2006.

If the Office disagrees with these comments, the Office is requested to respond.

Should any fees under 37 CFR 1.16-1.21 be required for any reason relating to the enclosed materials, the Commissioner is authorized to deduct such fees from Deposit Account No. 10-1205. The examiner is invited to contact the undersigned at the phone number indicated below with any questions or comments, or to otherwise facilitate expeditious and compact prosecution of the application.

Respectfully submitted,

William W. Enders
